Avid Readers:
West with Giraffes
By: Lynda Rutledge

It tells the great adventure story of 17-year-old Woodrow Wilson Nickel, who drives two giraffes cross country in 1938 America, finding himself along the way through the joys and conflicts of the voyage. This novel is a piece of historical fiction in which the historical context of 1938 permeates the narrator's character development. Told through the first person narrative point of view of the protagonist. Rutledge engages her reader in a story of adventure and an homage to animal rights. Central to this story is the promotion of animals as worthy of human devotion. Inspired by a true story, the novel is about hope, resilience, love, and the importance of memory and storytelling. *West with Giraffes* was published in 2021 and has been translated into 20 different languages.

Georgia Rule (2007)

R | 1h 53m | Romance, Drama | 2007
